- ⇒ The SJHP program has always had an individual skills training focus to prepare players for their upcoming Junior High School tryouts in the winter. With the uncertainty of junior high volleyball this winter, the SJHP program will continue to focus on developing the individual player and their skills.
- ⇒ Practices/training sessions will consist of mostly individual skill training practices and occasional basic volleyball team concepts. All practices will cover the basic skills including overhand passing, underhand passing, serving, attacking, digging and more. Some practice sessions for the older junior high players may include specialized position training for setters, hitters and defensive specialists.
- ⇒ Program participants will NOT be placed on teams and will NOT play in any competitions. Some practices may include some team concept drills to help prepare for their Junior High School team tryouts, but the focus will be on training the individual volleyball skills.
